RE: Label Claims/Disclaimers

Dear Sir or Madam:

This letter is to notify you that the following product is Manufactured, Packed, and/or Distributed by Enzymatic Therapy, Inc. at 825 Challenger Drive, Green Bay, Wisconsin 54311 has a label that contains a statement provided by section 403(r)(6) of the Federal Food, Drug and Cosmetic Act. Enzymatic Therapy, Inc. wishes to take advantage of the exemption to section 201(g)(1)(C) of the act and comply with section 403(r)(6) of the act. These claims are not necessarily for a product we currently market or plan to market in the immediate future, and may be exploratory in nature.

PRODUCT NAME		
Indolplex®	The patented form of DIM in Indolplex is 10 times more potent than its precursor, indol-3 carbinole (I3C).* I3C is highly unstable and has no biologic activity until it is converted to DIM. Conversion of I3C takes place in the stomach and requires an appropriately acidic environment. In contrast to I3C, DIM is highly stable, requires no conversion in the stomach, and is the most active cruciferous phytonutrient in promoting beneficial estrogen metabolism.*	Vitamin E, Indolplex

I certify that the information contained in this notice is complete and accurate and that Enzymatic Therapy, Inc. has substantiation that the statements are truthful and not misleading.
